Product Information

Product Name: Bushbox LF Premium Set

Model Number: BCE-054 / EAN:4260365160542

Description:

Bushbox LF Premium Set – Your Top-Tier Setup for Maximum Freedom

The Bushbox LF Premium Set is the ideal choice for anyone who values a perfectly coordinated system and excellent craftsmanship on their outdoor adventures. This complete package includes not only the highly efficient collapsible stove but also the most important accessories to get started right away. With the included Universal Grate and multifunctional Trivets, you are prepared for any challenge, while the high-quality, vegetable-tanned leather case offers enough space to safely stow stove and accessories. Another decisive advantage: the set is significantly cheaper than buying the individual products.

The centerpiece of the set is the Bushbox LF ("LF" stands for "Large, Foldable"). It strikes the perfect balance for all those who appreciate a certain level of comfort and are often on the go alone or in pairs. Thanks to the unique hinge technology, the stove is ready for use in no time – the hinges are designed to function reliably even under intensive use or when operated with gloves. With its minimal packing size of only approx. 1.2 cm thick, the Bushbox LF effortlessly disappears into your bag and still offers impressive heating power.

Through the proven chimney principle, you use natural fuels such as twigs or cones highly efficiently. The heat is directed directly to your cookware, which not only saves time but also conserves resources. In the spirit of the "Leave No Trace" philosophy, the base plate catches residues, and you leave the place as you found it. Made of 100% stainless steel in Germany, the Bushbox LF is a durable companion for anyone who values quality and functionality.

Your Advantages at a Glance

- **Complete Premium Set:** Includes the Bushbox LF, a pair of Trivets, the Universal Grate and a handmade Leather Pouch at a preferential price.

- **Clever Hinge Technology:** Quick assembly without tedious plugging – the hinges are designed for extreme durability.
- **Versatile Grilling Options:** The included Universal Grate serves as a grilling surface or a stable base for small vessels as well as for the use of pellets.
- **Independent Firing:** Works with wood, spirit burners (e.g. Trangia), Esbit or fuel paste.
- **High-Quality Leather Case:** The vegetable-tanned case with belt loops protects your equipment and keeps it ready for use at all times.
- **Diverse Extensions:** The system grows with your needs. Further accessories such as the Multifunctional Case can be found here.

Product Details & Technical Specifications

You can read in detail here why the Bushbox LF is a clever solution and how the components interact. The products in the set are perfectly coordinated and offer you maximum flexibility.

- **Stove Material:** 100% stainless steel (1 mm material thickness)
- **Leather Case:** Vegetable-tanned cowhide with 6 cm belt loop
- **Origin:** Made in Germany (stove, Universal Grate & Trivets)

Frequently Asked Questions (FAQ)

1. What is the main difference between the Bushbox LF and other models?

The Bushbox LF closes the gap between the original Bushbox and the XL stove. It offers enough power to cook comfortably for 1-2 people, but remains so flat when folded that it fits into any backpack side pocket. The integrated hinges make assembly even faster and more intuitive compared to our stoves with interlocking parts.

2. What fuels can be used and how is it operated?

You are completely flexible: the stove is optimized for natural fuels such as twigs, bark, or charcoal. With the included Trivets or the Universal Grate, you can also position a spirit burner at two different heights. The Bushbox LF is also ideally suited for fuel paste or pellets thanks to the Universal Grate.

3. Is the stove suitable for crisis preparedness?

Absolutely. Due to its independence from fossil fuel supply chains (such as gas cartridges), the Bushbox LF is an essential component for crisis preparedness. Since it burns with almost anything dry that can be found in nature, it provides a reliable cooking and heating source that remains ready for use for decades.

Still unsure if this stove is right for you? Then take a look at our stove selection matrix.

Tips & Tricks for the Bushbox LF:
