Product Information

Product Name: Bushbox LF Titanium Premium Set

Model Number: BCE-055 / EAN:4260365160559

Description:

Bushbox LF Titanium Premium Set – Maximum Performance, Minimum Weight

The Bushbox LF Titanium Premium Set is the ultimate solution for anyone who wants to carry no extra weight on their outdoor adventures, without sacrificing quality and functionality. This highly efficient set combines the extra-light titanium folding stove with perfectly matched accessories in one package. With the Universal Grate and multifunctional Trivets, you are prepared for any adventure, while the handmade, vegetable-tanned Leather Pouch offers enough space to safely stow your stove and accessories. A decisive advantage: buying the set is significantly cheaper than buying the individual products.

The centerpiece of the set is the Bushbox LF Titanium ("LF" stands for "Large, Foldable"). It combines the compact design of the stoves with interlocking parts with the power of our larger Bushboxes. Made from high-quality pure titanium, the stove itself weighs only a fraction of its stainless steel counterpart. Thanks to the unique hinge technology, it is ready for use in no time – the hinges are designed not to stick, even with intensive use or in cold weather. With a packed size of only approx. 1.2 cm, the system effortlessly disappears into any pack.

Thanks to the proven chimney principle, you can use natural fuels such as twigs or cones extremely efficiently. Heat is concentrated upwards, saving time and fuel. In line with the "Leave No Trace" philosophy, the base plate catches residues, and you leave the place as you found it. To prevent thermally induced warping, the base plate is deliberately made of stainless steel – a thoughtful combination of materials for maximum durability. Made in Germany, this set is a loyal companion for anyone who values first-class equipment.

Your Advantages at a Glance

- **Ultra-light Premium Set:** Includes the Bushbox LF Titanium, a pair of titanium Trivets, the titanium

Universal Grate, and a handmade Leather Pouch at a preferential price.

- **High-quality Materials:** Made from pure titanium (Grade 1) for minimal load with maximum durability.
- **Clever Hinge Technology:** Quick assembly without tedious plugging – durable and functional, operable even with gloves.
- **Versatile Grilling Options:** The included titanium Universal Grate serves as a grilling surface or stable base for small vessels, as well as for using pellets.
- **Independent Fueling:** Works with wood, alcohol burners (e.g., Trangia), Esbit, or fuel paste.
- **High-quality Leather Case:** Vegetable-tanned Leather Pouch with a belt loop protects your stove and keeps it ready at hand.
- **Various Extensions:** The system grows with your demands. Further accessories such as the Multifunctional Case can be found here.

Product Details & Technical Specifications

You can read in detail why the Bushbox LF Titanium is a clever solution for your setup here. The components are perfectly coordinated and offer you maximum flexibility with minimum packed size.

- **Total Weight:** approx. 445 g (Set incl. Leather Pouch)
- **Stove Dimensions:** 14 x 10 x 1.2 cm (folded) | 14 x 10 x 10 cm (unfolded)
- **Material:** Pure titanium (Grade 1, 1 mm material thickness), base plate made of stainless steel
- **Leather Case:** Vegetable-tanned cowhide with 6 cm belt loop
- **Origin:** Made in Germany (stove, Universal Grate & Trivets)

Frequently Asked Questions (FAQ)

1. Why is the base plate made of stainless steel and not titanium?

Titanium is an excellent material for low weight, but it reacts more sensitively to extreme, localized heat than stainless steel. To proactively prevent warping of the stove due to embers at the bottom, we use a robust stainless steel base plate there. This guarantees the functionality of the stove for many years.

2. Which fuels can be used with the Titanium Set?

Like all our models, the Titanium version is a multi-fuel stove. You can fuel it with twigs, leaves, or charcoal. With the Universal Grate at medium height, it can also be operated with alcohol burners (e.g., Trangia), fuel paste, or Esbit.

3. Is the Bushbox LF Titanium suitable for emergency preparedness?

Absolutely. Especially in situations where you need to stay mobile, it plays out its weight advantage. Its independence from gas or gasoline resupply makes it a crisis-proof cooking solution. Since titanium is also extremely corrosion-resistant, the set remains immediately ready for use even after long storage or in damp conditions.

Still unsure if this stove is right for you? Then check out our stove selection matrix.
