Product Information

Product Name: Wood Slide Bushbox XXL+

Model Number: BCE-073 / EAN:4260365160733

Description:

The Wood Slide enhances your cooking experience and enjoyment of the fire by automatically feeding firewood into the fire chamber of your Bushbox XXL+. There's no need for constant wood additions; simply feed longer branches from the start and focus on cooking or relaxing by the fire.

The „Wood Slide Bushbox XXL+“ in detail

- The Wood Slide is easily inserted through the fuel window at a slight angle and then positioned horizontally (see photos).
- You can adjust the angle of inclination using the attached chain by hooking it into the two outermost hooks at the top. For longer and heavier branches, a steeper angle (i.e. a shorter chain) ensures the wood slides down reliably and the Bushbox remains stable, preventing accidental tipping.
- Light your Bushbox fire as usual and add the appropriate amount of fuel. Once the fire starts, you can add wood through the Wood Slide. The wood will automatically slide in as the fire burns, so you don't need to constantly add burnable material. Meanwhile, you can prepare food on the Bushbox using our Trivets or Universal Grate.
- Alternatively, if the angle is very shallow, you can use the Wood Slide as a small platform to keep your drink warm.
- You can also hook the Wood Slide vertically into the stove from the inside (see photo) to completely close the fuel window. This is useful for making a campfire, as it allows the heat to radiate all the way up. Alternatively, you could cook with charcoal or use it as an additional windshield for your Trangia.
- Caution: The chain is designed to withstand high temperatures, even when hanging in the combustion chamber. However, never touch it with bare hands when hot. Always wear gloves.
- Note: Occasionally, you may need to manually nudge the wood further in to ensure it burns evenly and does not accidentally ignite outside the Bushbox.

Technical data

- Dimensions: 15.5 x 15 cm

- Weight: 184 g (100 % stainless steel)
- Made in Germany

OTHER PRODUCTS SHOWN ARE INTENDED FOR ILLUSTRATIVE PURPOSES ONLY AND ARE NOT PART OF THE OFFER.

HS Code: 732119

Product Category: solid fuel non-electric stoves

Declaration of Conformity

We hereby declare that the product described above complies with the essential requirements and other relevant provisions of Directive 2001/95/EC (GPSR).

Standards and Regulations

The product complies with the following standards and regulations:

- Machinery Directive 2006/42/EC
- Regulation (EU) 2019/1020 on market surveillance and compliance of products
- Regulation (EU) 2023/1234 on general product safety (GPSR)

Applied harmonised standards:

- ISO 19869:2019 - Evaluation of emissions, efficiency and safety of cookstoves

Additional information:

- The product has been developed and tested in accordance with the requirements of the above-mentioned directives and standards.
- All relevant technical documentation and test reports are available and can be provided on request.
