Product information

Product Name: EDCBox Micro Stove

Model Number: BCE-002 / EAN:4260365160023

Description:

EDCBox Micro Stove – Your Reliable Pocket Companion

Imagine you're on the go and temperatures drop, or you quickly need a hot cup of tea in an unexpected situation. With the EDCBox Micro Stove, you always have the solution with you – literally in your wallet or on your keychain. As one of the most compact hobos in the world, this small specialist completely redefines "Everyday Carry." It's more than just a tool; it's your reliable backup for all eventualities.

Despite its small size, the micro stove impresses with well-thought-out functionality. It's ready for use in just a few simple steps, offering you the freedom to operate independently of heavy gas cartridges. Whether you want to train your survival skills or are simply a fan of minimalist equipment: the EDCBox integrates seamlessly into your gear without adding significant weight. Each individual part is precisely manufactured and features a hole so you can securely attach your stove to a carabiner.

Its versatility doesn't stop at cooking. In your camp, the EDCBox serves as an atmospheric tea light holder or keeps your coffee cup warm. Thanks to its construction from high-quality, stainless steel, the stove is extremely durable and resilient. Delivered in a robust canvas bag, your equipment always stays clean and organized. Experience the independence made possible by clever design and German craftsmanship.

Your Advantages at a Glance

- **Extremely compact:** When disassembled, it fits in almost any wallet or on a keychain.
- **Multifunctional:** Ideal for use as an emergency stove, mug warmer, or tea light holder.
- **Fuel flexibility:** Can be operated with twigs, alcohol, Esbit, or fuel paste.
- **Robust material:** Made from 100% stainless steel (1.4301) for high corrosion resistance.
- **Includes accessories:** Supplied with perfectly fitting Trivets for a secure stand and a practical canvas bag.
- **Made in Germany:** High-precision manufacturing and short transport routes.

Product Details & Technical Specifications

You can read in detail here what distinguishes our EDCBox at its core and our stoves in general, and why they should definitely be part of every outdoor adventurer's equipment. To protect the environment, we do not use unnecessary plastic packaging and deliver the stove in a robust bag made of 100% cotton (canvas). The included Trivets ensure maximum flexibility when choosing your cookware.

- **Weight:** 75 g (stove) + 10 g (Trivets) + 14 g (bag)
- **Dimensions:** 6.5 x 4.7 x 0.6 cm (disassembled) | 6.5 x 4.7 x 4.7 cm (assembled)
- **Material:** 0.8 mm thick, high-quality stainless steel | Bag: Canvas
- **Origin:** Made in Germany

Frequently Asked Questions (FAQ)

1. What are the best uses for the EDCBox Micro Stove?
The EDCBox is primarily designed as an emergency stove and for "Everyday Carry" (EDC). It is ideal for minimalists who are looking for an ultra-compact cooking option for day trips or in an urban environment. It is also a valuable tool for warming small meals or boiling water in emergency situations.

2. What fuels can I use and how do I achieve the best performance?
You can fuel the EDCBox with natural materials such as dry twigs and bark. However, for clean and fast heat generation, we recommend using Esbit tablets, fuel paste, or a small alcohol burner. The included Trivets are essential: they ensure that enough oxygen can circulate between the flame and your cooking vessel, which significantly increases combustion efficiency.

3. How durable is it under high heat?
We use 0.8 mm thick, stainless steel for the EDCBox. This material is extremely heat-resistant. Thanks to its precision-fit interlocking system, the stove remains dimensionally stable even after repeated use and assembles consistently.

Still unsure if this stove is right for you? Then check out our stove selection matrix.

Tips & Tricks for the EDCBox:

Note: Other products shown are for illustration purposes only and are not part of the offer.

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
  - Observe the local regulations for open fire.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
