Product Safety Information

Manufacturer

Manufacturer: Bushcraft Essentials GmbH

Address: Friedrichstr. 19, 85435 Erding, Germany

Contact: info@bushcraft-essentials.com

Product information

Product Name: Bushbox Titanium

Model Number: BCE-022 / EAN:4260365160221

Description:

Bushbox Titanium – Your Ultralight Companion for Maximum Freedom

It's the stove that started a success story in 2012: Our original Bushbox, now in its fourth generation, stands for uncompromising reliability. In this special titanium version, we combine the proven design with the high-end material titanium. The result is a stove that offers exactly what you need on the go: independence with a minimal weight that is barely noticeable in your backpack.

Whether on a hike or as an essential part of your emergency equipment – the Bushbox Titanium is so compactly designed that it easily fits into a trouser pocket. Despite its lightness, it develops enormous heat output thanks to the chimney principle and the Coanda effect. It directs the energy exactly where it is needed: to your cookware. This way, you boil water for your coffee or a fortifying meal with a minimum of fuel, while heat radiation to the sides is reduced.

This stove works entirely in the spirit of the "Leave No Trace" philosophy: due to the controlled combustion within the stove, no traces are left in nature. Furthermore, you are not dependent on gas cartridges, but use what the environment offers you – from twigs to pine cones. The Bushbox Titanium is a piece of equipment for purists who value "Made in Germany" quality, high-quality materials, and maximum flexibility with the smallest packing size.

Your advantages at a glance

- **Ultralight Pure Titanium:** At only 155 g total weight, this stove is the first choice for minimalists.
- **Maximum Mobility:** Extremely flat pack size (only 1 cm thick when disassembled), ideal for your pocket or EDC kit.
- **Resource-Saving Efficiency:** Optimal fuel utilization through chimney effect, works even with damp natural material.
- **Versatile Fueling:** Compatible with wood, spirit burners (e.g., Trangia), fuel paste, or Esbit.

- **Secure Stand:** Includes titanium Trivetss for different pot sizes or for use as a mini-grill.
- **Modular System:** Expandable with the Bushbox Coupling Module or the Grill Plate.

Product Details & Technical Specifications

You can read in detail here what fundamentally distinguishes our original Bushbox Titanium and why it has been the standard in the ultralight sector for years. To protect the environment, we do not use unnecessary plastic packaging and deliver the stove in a lightweight cotton bag. For long-term outdoor use, we recommend our robust outdoor bag.

- **Weight:** 155 g (stove) + 6 g (Trivets)
- **Dimensions:** 11.5 x 9 x 1 cm (disassembled) | 11.5 x 9 x 9 cm (assembled)
- **Material:** Pure titanium (Grade 1, 0.8 mm material thickness)
- **Origin:** Made in Germany

Frequently Asked Questions (FAQ)

1. Who is the Bushbox Titanium best suited for?

The Bushbox Titanium is primarily designed for solo outdoor enthusiasts, hikers, and ultralight enthusiasts who want to save every gram without sacrificing performance. It is perfect for day trips or minimalist overnight stays. Due to its low weight, it is also an ideal emergency stove that fits into any bag and works independently of fossil fuels.

2. What fuels can be used and how is it operated?

The Bushbox Titanium is a true multi-talent: it can be operated classically with wood (twigs, cones) or serve as a windshield for spirit burners, Esbit, and fuel paste. For maximum efficiency, you should place it on a flat surface. When disassembling, pay attention to the locking mechanism: when cooled down, gently pull the short side panels outwards at the top to release the lock.

3. Why titanium and how does the material behave when heated?

Titanium offers an unbeatable strength-to-weight ratio and is extremely corrosion-resistant. When exposed to high heat, the material develops its characteristic annealing colours, which is a quality feature of genuine titanium. Thanks to the special design with interlocking parts, the stove remains dimensionally stable despite thermal expansion and can be easily disassembled after cooling down.

Still unsure if this stove is the right one for you? Then take a look at our stove selection matrix.

Tips & Tricks for the Bushbox Titanium:

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
