Product information

Product Name: Bushbox Ultralight

Model Number: BCE-027 / EAN:4260365160276

Description:

Bushbox Ultralight – Your Featherlight Companion

When every gram counts on your tours, our Bushbox Ultralight is exactly the right choice! In its lightest configuration, it weighs just 60 grams, making it an exceptionally lightweight option among outdoor stoves. Despite weighing next to nothing, the Bushbox Ultralight is a fully functional stove that offers maximum freedom and versatility on the trail without weighing down your pack.

Made from highly stable, 0.3 mm spring steel, this stove can be flexibly assembled in just a few steps. A well-thought-out locking mechanism holds the side parts firmly together and ensures the necessary stability for cooking. Disassembly takes seconds: as soon as you release the lock on one side, all parts can be folded flat. With a packed size of only approx. 1.5 mm when disassembled, the Bushbox Ultralight fits into any pocket or even the lid compartment of your backpack.

This stove operates completely in line with the "Leave No Trace" philosophy: controlled combustion within the stove leaves no traces in nature. Furthermore, you are completely independent, as you can easily fuel the Bushbox Ultralight with whatever you find on site – from small twigs to dry leaves. It is the perfect solution for minimalists who value "Made in Germany" quality and maximum efficiency at the lowest weight.

Your Advantages at a Glance

- **Extremely Lightweight:** Weighs from 60 g depending on configuration – ideal for ultralight hiking and minimalists.
- **Ultra-slim Design:** Only approx. 1.5 mm thick when disassembled, fits in any pocket or flat backpack compartments.
- **Versatile Fueling:** Use twigs, leaves, or use it as a windshield for spirit burners (e.g. Trangia), Esbit, or gel stoves.

- **Modular System:** Base Plate and Trivet can be used in various positions to individually adapt the stove.
- **Resource-efficient Design:** Optimal heat transfer through the chimney principle with minimal fuel consumption.
- **High-quality Spring Steel:** 100% stainless spring steel (0.3 mm) ensures the perfect balance of flexibility and stability.

Product Details & Technical Data

You can read in detail here what fundamentally distinguishes our Bushbox Ultralight and why it is the ultimate tool for your adventures. To protect the environment, we deliver the stove in a light cotton bag. For regular outdoor use, we recommend our robust Outdoor Bag Bushbox Ultralight.

- **Weight:** approx. 78 g (complete set) | 69 g (with Base Plate) | from 60 g (minimal setup)
- **Dimensions:** 12 x 9 cm x 1.5 mm (disassembled) | 12 x 11 x 9 cm (assembled)
- **Material:** 100% stainless spring steel (0.3 mm material thickness)
- **Origin:** Made in Germany

Frequently Asked Questions (FAQ)

1. Who is the Bushbox Ultralight best suited for?

The Bushbox Ultralight is specially designed for hikers, trail runners, and ultralight enthusiasts who count every gram. It is excellent for cooking for 1-2 people on day trips or long-distance hikes. It also serves as an excellent, featherlight windshield for existing gas or spirit stove systems.

2. Which fuels can be used and what should be considered regarding ground protection?

You can operate the Bushbox Ultralight with wood (twigs, branches) as well as with spirit burners, Esbit, or fuel paste. For firing with wood, we recommend the optional Ash Plate. It serves as ground protection and catches falling embers to protect the environment.

3. How stable is the thin spring steel when heated?

The 0.3 mm spring steel used is extremely durable. The well-thought-out locking mechanism ensures that the construction remains stable under load. After use, the material cools down very quickly. Due to the flexibility of the spring steel, the stove can be precisely and easily assembled again even after many uses.

Still unsure if this stove is right for you? Then take a look at our stove selection matrix.

Tips & Tricks for the Bushbox Ultralight:

Note: Other products shown are for illustration purposes and are not part of the offer.

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
  - Observe the local regulations for open fire.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
