Product Safety Information

Manufacturer

Manufacturer: Bushcraft Essentials GmbH

Address: Friedrichstr. 19, 85435 Erding, Germany

Contact: info@bushcraft-essentials.com

Product information

Product Name: Bushbox Coupling Module

Model Number: BCE-033 / EAN:4260365160337

Description:

With the Coupling Module, you can connect your Bushbox with that of a friend to create a larger and more efficient stove capable of being fired from two sides. This way, each of you has their own independent stove but can also enjoy the benefits of a larger stove when meeting with others.

The „Bushbox Coupling Module“ in detail

- The Coupling Module can be used to connect two Bushboxes to a larger, more efficient stove.
- To connect the Bushboxes, simply remove the back panel of both stoves, plug the Bushboxes together and place the Coupling Module over the locking hooks of the Bushboxes from above so that the hooks of the Coupling Module hold the two stoves together.
- Thanks to the Coupling Module, you can use the connected Bushboxes flexibly and in a variety of ways, for example as a stable surface for larger cooking vessels or pans. You can also turn one cooking surface into a mini grill with our Grill Plate while boiling water on the other side. Or you can use the Bushbox Trivets to grill larger food such as fish. Just be creative.
- Note: The Coupling Module is compatible with the original Bushbox and our Bushbox Titanium, but not with our other Bushbox models.

Technical data

- Weight: 19 g
- Dimensions: 9.2 x 9 cm
- Material: 100 % stainless steel (0.8 mm, 1.4301)
- Made in Germany

OTHER PRODUCTS SHOWN ARE INTENDED FOR ILLUSTRATIVE PURPOSES ONLY AND ARE NOT PART OF THE OFFER.

HS code: 732119

Product category: solid fuel non-electric stoves

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
  - Observe the local regulations for open fire.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
