# Product Safety Information

## Manufacturer

**Manufacturer:** Bushcraft Essentials GmbH

**Address:** Friedrichstr. 19, 85435 Erding, Germany

**Contact:** info@bushcraft-essentials.com

## Product information

**Product Name:** Bushbox LF

**Model Number:** BCE-039 / EAN:4260365160399

**Description:**

## Bushbox LF – Your Highly Efficient Folding Stove for Maximum Independence

The Bushbox LF ("LF" stands for "Large, Foldable") strikes the perfect balance for those who refuse to compromise outdoors. It combines the compact pack size of the original model with the efficiency of the larger versions. When you arrive at your camp after a long day on the trail, this stove is ready for use in just a few simple steps thanks to its ingenious hinge technology – even if your hands are numb from the cold or you're wearing gloves. The precise mechanism ensures that the hinges never stick, allowing you to fully concentrate on your experience.

The heart of the Bushbox LF is its versatility. It is optimized for 1-2 people and gives you complete freedom in choosing your energy source. Simply use whatever you find along the way: twigs, branches, or pine cones are burned highly efficiently thanks to the chimney principle. Alternatively, the stove can be perfectly used as a windshield for alcohol stoves like the Trangia, or for fuel paste and Esbit tablets. This way, you remain self-sufficient in any situation and are not dependent on refilling gas cartridges.

By directing heat upwards, energy is delivered straight to your cookware while minimizing heat loss to the sides. This not only saves fuel but also protects the ground. In keeping with the "Leave No Trace" philosophy, you leave no trace behind after your break. Made from 100% stainless steel in Germany, the Bushbox LF is a durable stove for anyone who values quality and functionality.

### Your Advantages at a Glance

- **Compact Folding Technology:** Thanks to the unique hinge technology, the stove folds down to just 1.2 cm thick and can be stored in a space-saving manner.
- **Highly Efficient Chimney Effect:** The design ensures strong heat generation with minimal fuel consumption.

- **Maximum Flexibility:** Operates with wood, alcohol stoves, fuel paste, or Esbit – you decide what you use.
- **Robust Material:** 1 mm thick quality stainless steel (1.4301) ensures extreme durability and long-lasting corrosion resistance.
- **Includes Accessories:** The pair of Trivets allows the use of various pot sizes and offers variable positions for external burners.
- **Diverse Expansions:** Compatible with the Universal Grate for use as a grill or toast holder. Further accessories can be found here.

## Product Details & Technical Specifications

You can find out why the Bushbox LF is a super clever solution and what details make it so unique here. To protect the environment, we deliver the stove standard in a lightweight cotton bag. For intensive outdoor use, we recommend our robust Outdoor Bag or the premium Leather Pouch.

- **Weight:** 475 g (stove) + 33 g (Trivets)
- **Dimensions:** 14 x 10 x 1.2 cm (folded) | 14 x 10 x 10 cm (unfolded)
- **Material:** 100% stainless steel (1 mm material thickness)
- **Origin:** Made in Germany

## Frequently Asked Questions (FAQ)

**1. What is the main difference between the Bushbox LF and other models?**

The Bushbox LF closes the gap between the small Bushbox and the large XL version. It offers enough power to comfortably cook for 1-2 people, while remaining flat enough to fold and fit into any backpack side pocket. The integrated hinges make assembly even faster and more intuitive compared to the classic Bushbox with interlocking parts.

**2. What fuels can be used and how is it operated?**

You are completely flexible: The stove is optimized for natural fuels such as twigs, bark, or charcoal. With the included Trivets, you can also position an alcohol stove (e.g., Trangia) at two different heights. The Bushbox LF is also perfectly suitable for fuel paste or Esbit.

**3. Is the stove suitable for use in crisis situations?**

Absolutely. Due to its independence from fossil fuel supply chains (such as gas cartridges), the Bushbox LF is an essential component for crisis preparedness and prepping. Since it burns with almost anything that is dry, it provides a reliable cooking and heating source that remains ready for use for decades.

Still unsure if this stove is right for you? Then check out our stove selection matrix.

**Tips & Tricks for the Bushbox LF:**

**HS code:** 732119

**Product category:** solid fuel non-electric stoves

**Tips & Tricks for the Bushbox LF:**

## Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
  - Observe the local regulations for open fire.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

## Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
