The „Universal Grate Bushbox LF“ in detail

The Universal Grate can be used in many ways:

- Attached on top of the Bushbox LF it makes an excellent grill or provides a solid platform for smaller pots and cups.
- Inserted into a special half-height position, it can be used as a stand for alcohol burners (like the Trangia).
- In this half-height position, it is also ideal for the use with charcoal or wood pellets (lower fuel consumption with more effective and constant cooking or grilling temperature over a long period of time; one cup of pellets is enough for approx. 30 minutes of operating time).
