Product information

Product Name: Bushbox LF Set

Model Number: BCE-042 / EAN:4260365160429

Description:

Bushbox LF Set – Your All-Inclusive Package for maximum Freedom

The Bushbox LF Set is the ideal choice for anyone who values a perfectly coordinated system for their outdoor adventures. This set not only contains the highly efficient folding stove, but also the most important accessories to get started immediately. With the included Universal Grate and the versatile Trivets, you are prepared for any situation, while the durable Outdoor Bag ensures that your equipment remains clean and compactly stowed after use. Another decisive advantage: When you buy the set, you save significantly compared to buying the individual products.

The centerpiece of the set is the Bushbox LF (“LF” stands for “Large, Foldable”). It strikes the perfect balance—nearly as compact as the smaller original Bushbox, yet as efficient as the larger Bushbox XL. Perfect for those who appreciate a certain level of comfort and are often out alone or as a pair. Thanks to the unique hinge technology, the stove is ready for use in no time – the hinges are designed never to stick, even under extreme conditions or when operated with gloves. With its minimal packing size of only approx. 1.2 cm thick, the Bushbox LF disappears effortlessly into any bag and yet offers the heating power of a significantly larger stove.

Thanks to the proven chimney principle, you can use natural fuels such as twigs or cones highly efficiently. The heat is directed directly to your cookware, which not only saves time but also protects the environment. In the spirit of the "Leave No Trace" philosophy, you leave no trace behind. Made from 100% stainless steel in Germany, the Bushbox LF is a durable stove for anyone who values quality and functionality.

Your advantages at a glance

- **Complete Set:** Includes the Bushbox LF, a pair of Trivets, the Universal Grate and a robust Outdoor Bag at a preferential price.
- **Clever Hinge Technology:** Fast assembly without plugging – the hinges are extremely durable and

guaranteed never to stick.
- **Versatile Grilling Options:** The included Universal Grate serves as a grilling surface or a stable base for small vessels as well as for the use of wood pellets.
- **Independent Fueling:** Works with wood, spirit burners (e.g. Trangia), Esbit or fuel paste.
- **Clean Storage:** The high-quality canvas bag with separate internal compartments keeps everything neatly stored.
- **Diverse Extensions:** The system grows with your demands. Further accessories can be found here.

Product Details & Technical Specifications

You can read in detail here why the Bushbox LF is a super clever solution and how the individual components interact. The products in the set are perfectly coordinated and offer you maximum flexibility with minimal weight.

- **Total Weight:** approx. 590 g (incl. bag and accessories)
- **Stove Dimensions:** 14 x 10 x 1.2 cm (folded) | 14 x 10 x 10 cm (unfolded)
- **Material:** 100% high-quality stainless steel (1 mm material thickness)
- **Outdoor Bag:** Durable canvas fabric with belt loop and D-ring
- **Origin:** Made in Germany (stove, Universal Grate & Trivets)

Frequently Asked Questions (FAQ)

1. What is the main difference between the Bushbox LF and other models?

The Bushbox LF closes the gap between the small Bushbox and the large XL version. It offers enough power to cook comfortably for 1-2 people, yet remains so flat when folded that it fits into any backpack side pocket. The integrated hinges make assembly even faster and more intuitive compared to the classic Bushbox with interlocking parts.

2. What fuels can be used and how is it operated?

You are completely flexible: The stove is optimized for natural fuels such as twigs, bark or charcoal. With the included Trivets or the Universal Grate, you can also position a spirit burner (e.g. Trangia) at two different heights. The Bushbox LF is also perfectly suited for fuel paste or Esbit.

3. Is the stove suitable for use in crisis situations?

Absolutely. Due to its independence from fossil fuel supply chains (such as gas cartridges), the Bushbox LF is an essential component for crisis preparedness and prepping. Since it burns almost anything that is dry, it offers a reliable cooking and heating source that remains operational for decades.

Still unsure if this stove is right for you? Then take a look at our stove selection matrix.

Tips & Tricks around the Bushbox LF:

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
  - Observe the local regulations for open fire.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
