Product information

Product Name: Bushbox XXL+

Model Number: BCE-070 / EAN:4260365160702

Description:

Bushbox XXL+ – The Mobile Powerhouse for Cooking, Grilling, and Campfires

The Bushbox XXL+ redefines outdoor cooking. As our largest model, it is not only a powerful stove but also a mobile fire pit that creates a warm and social atmosphere. Whether you're van-camping, on extended canoe trips, or at base camp with friends – this stove offers you the freedom to even prepare food for several people at once, without sacrificing a compact pack size.

Thanks to its innovative hinge technology, the Bushbox XXL+ is ready for use in no time, despite its impressive dimensions. At only approx. 1.5 cm thick when folded, it effortlessly disappears into your pack. The design consistently focuses on efficiency: the proven chimney principle ensures that even damp material burns quickly and hot. This allows you to make optimal use of natural resources and remain completely independent of gas cartridges or fossil fuels.

The Bushbox XXL+ serves as a stable base for large pots and pans, acts as an excellent windshield for gas stoves or spirit burners, and transforms into your personal "Bushbox TV" in the evening – a crackling campfire that immediately creates a cosy atmosphere. The integrated Ash Plate reliably collects residue, thus supporting the "Leave No Trace" philosophy.

Your Advantages at a Glance

- **Maximum Capacity & Flexibility:** Ideal for cooking for groups, grilling, or as a safe fire pit for a cosy campfire.
- **Unique Hinge Technology:** Quick assembly without individual parts; the precise hinges are extremely durable and won't stick.
- **Highly Efficient Chimney Effect:** Strong heat development with minimal fuel consumption due to optimal

air supply from below.
- **Low-Warp Design:** The special cross-bend design on the base plate and back reduces heat-induced material warping and ensures functionality.
- **Includes Accessories:** The set includes multifunctional stainless steel Trivets and a durable Outdoor Bag.
- **Durable Quality:** 100% made from stainless steel in Germany – a loyal companion for countless adventures.

Product Details & Technical Specifications

Find out here why the Bushbox XXL+ is a super clever solution and what details make it so unique. To expand your outdoor kitchen, the stove is also compatible with the Universal Grate or the Wood Slide.

- **Weight:** approx. 1,590 g (stove) + 112 g (Trivets) + 157 g (Outdoor Bag)
- **Dimensions:** 28 x 26.5 x 1.5 cm (folded) | 28 x 26.5 x 26.5 cm (unfolded)
- **Material:** 100% high-quality stainless steel (1 mm material thickness)
- **Origin:** Made in Germany

Frequently Asked Questions (FAQ)

1. How many people can you cook for with the Bushbox XXL+?

Due to its size and the extremely high heat generation through the chimney effect, the Bushbox XXL+ is easily suitable for larger groups or families. It stably and securely supports even heavy cast iron pans or large pots, making it an ideal companion for camping, van-life adventures, base camps, or simply for a micro-adventure in your own garden.

2. What fuels can be used?

You can fuel the stove with twigs, cones, charcoal, or briquettes. Additionally, it is excellent as a windshield for spirit burners (like Trangia) or even for large gas cartridges, with the fuel hose easily guided through the front opening.

3. Does the material warp at the high heat of a campfire?

At extremely high temperatures, physically induced warping in metal can never be completely ruled out. However, we have proactively integrated the cross-bend design into the base plate and back. This significantly reduces warping and ensures that the folding mechanism and stability of your stove are permanently maintained.

Still unsure if this stove is right for you? Then take a look at our stove selection matrix.

HS code: 732119

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
  - Observe the local regulations for open fire.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
