Product information

Product Name: Bushbox XXL+ (Titanium)

Model Number: BCE-076 / EAN:4260365160764

Description:

Bushbox XXL+ Titanium – The Ultralight Powerhouse for Big Adventures

The Bushbox XXL+ Titanium combines maximum cooking performance with minimum weight. As our largest titanium version, it is the perfect choice for anyone who wants to cook for groups without having to carry heavy equipment. Whether for van life, expeditions, or your next micro-adventure in your own backyard – this stove offers you the freedom to cook efficiently anywhere, while barely adding any weight to your pack.

Thanks to the innovative hinge technology, the Bushbox XXL+ Titanium is ready for use in no time despite its size. With a thickness of only approx. 1.5 cm when folded, it effortlessly disappears into your backpack or camper. The design consistently focuses on efficiency: the proven chimney principle ensures that even damp material burns quickly and hot. This way, you make optimal use of natural resources and remain completely independent of fossil fuels.

The Bushbox XXL+ Titanium serves as a stable base for large pots and pans, acts as an excellent wind shield for gas stoves or spirit burners, and transforms in the evening into your personal "Bushbox TV" – a crackling campfire that immediately creates a cosy atmosphere. The integrated Ash Plate reliably collects residues, thus supporting the "Leave No Trace" philosophy.

Your advantages at a glance

- **Lightweight titanium:** Extremely robust with significantly reduced weight (only approx. 1,000 g) compared to the stainless steel version.
- **Unique hinge technology:** Quick assembly without individual parts; the precise hinges are extremely durable and do not stick.
- **Highly efficient chimney effect:** Strong heat development with minimal fuel consumption due to optimal

air supply from below.
- **Low-warp design:** The special cross-bend design on the base plate and back reduce heat-related material warpage and ensure functionality.
- **Includes accessories:** The set includes multifunctional stainless steel Trivets and a durable Outdoor Bag.
- **Durability & Quality:** Made from high-quality pure titanium (Grade 1) in Germany – made for a lifetime of adventures.

Product details & Technical specifications

You can find out why the Bushbox XXL+ Titanium is such a super clever solution and what details make it so unique here. For expanding your outdoor kitchen, the stove is also compatible with the Universal Grate or the Wood Slide.

- **Weight:** approx. 1,000 g (stove) + 112 g (Trivets) + 157 g (Outdoor Bag)
- **Dimensions:** 28 x 26.5 x 1.5 cm (folded) | 28 x 26.5 x 26.5 cm (unfolded)
- **Material:** Pure titanium (Grade 1, 1 mm material thickness), base plate and Trivets made of stainless steel
- **Origin:** Made in Germany

Frequently Asked Questions (FAQ)

1. How many people can you cook for with the Bushbox XXL+ Titanium?

Due to its size and the extremely high heat generation through the chimney effect, the Bushbox XXL+ Titanium is easily suitable for larger groups or families. It stably and securely supports even heavy cast iron pans or large pots, making it the ideal companion for camping, van life adventures, and base camps, or simply for a micro-adventure in your own backyard.

2. What fuels can be used?

You can fire the stove with twigs, cones, charcoal, or briquettes. Additionally, it is excellent as a wind shield for spirit burners (like Trangia) or even for large gas cartridges, with the fuel hose simply routed through the front opening.

3. Does the material warp under the high heat of a campfire?

At extremely high temperatures, physically induced warping of metal can never be completely ruled out. However, we have proactively integrated the cross-bend design into the base plate and the back. This significantly reduces warping and ensures that the folding mechanism and the stability of your stove are maintained permanently.

Still unsure if this stove is the right one for you? Then check out our stove selection matrix.

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
