Product Safety Information

Manufacturer

Manufacturer: Bushcraft Essentials GmbH

Address: Friedrichstr. 19, 85435 Erding, Germany

Contact: info@bushcraft-essentials.com

Product information

Product Name: B-Stock Bushbox LF

Model Number: BWBCE-039 / EAN:4260365160399

Description:

Are you looking for a high-quality, durable stove at an affordable price? Then you've come to the right place in the Bushcraft Essentials Outlet. Here you can buy some of our products at a reduced price. They have some optical imperfections caused during manufacture, but they are fully functional.

Even with our high production standards and the greatest possible care, it does happen from time to time that parts come out of production with 'blemishes' such as scratches, fingerprints, irregularities, laser marks and residues or other optical flaws. However, this does not affect their functionality. In addition, we guarantee that these B-stock products - just like all our stoves - were produced in Germany, made of the same high-quality materials, manufactured under the same conditions and are equipped with the same meticulously crafted hinge technology. Instead of discarding these 'still good' products, we want to give them a second chance.

The price includes a B-Stock Bushbox LF made of 100 % stainless steel and a set of variable Trivets. You can find more information about our Bushbox LF and its functions hier.

THE PRODUCT ILLUSTRATIONS ARE EXEMPLARY PHOTOS. THE ACTUAL VISUAL DEFECTS MAY DIFFER FROM THE ILLUSTRATION.

How our stoves work:

All our Bushboxes follow the stack effect (or chimney principle): The air flows into the stove from below, causes even damp material to burn and produces strong heat which – thanks to the clever design of the stove - is directed straight upwards and hardly radiates to the sides. Compared to a campfire, the Bushbox allows for a clean, compact and safe way of cooking, fully in line with the "Leave no Trace" principle.

Still unsure which stove is right for you? Then take a look at our stove selection matrix:

Bushbox LF Tips & Tricks:

HS code: 732119

Product category: solid fuel non-electric stoves

Bushbox LF Tips & Tricks:

Safety Instructions:

- **Usage Instructions:**
  - Use only outdoors.
  - Ensure the stove and its accessories are placed on a stable, level, and fireproof surface.
  - Keep the product away from flammable materials during operation.
  - Avoid flying sparks: Flying sparks can cause fires or burn holes in plastic materials (tents, clothing).
- **Fuel:**
  - Use only recommended fuels (twigs, branches, alcohol burners, fuel paste).
  - Do not use liquid fuels such as gasoline or alcohol that are not explicitly recommended.
- **Operation:**
  - Never leave an open fire unattended.
  - Use heat-resistant gloves to avoid burns.
  - Ensure the product has cooled down completely before touching, disassembling or storing it.
  - Observe the local regulations for open fire.
- **Children and Pets:**
  - Keep children and pets away from the product while it is in use.
  - Store the product out of reach of children.
- **Maintenance and Care:**
  - Clean the products after each use.
  - Regularly check for damage or wear and replace damaged parts immediately.

Emergency Measures:

- In case of fire: Use a fire extinguisher or sand to extinguish the fire. Do not use water if the stove and its accessories are operated with alcohol.
- In case of burns: Cool the affected area immediately with cold water and seek medical attention.
